

## Alasela Babatunde Service Offering's

You build three clear AI products:

1. **AI Assistant (Web or WhatsApp)**  
→ Talks to customers, answers questions, helps sell.
2. **Multi-User AI Platform (Web-based)**  
→ Many users can use the AI at the same time.
3. **Advanced AI Agent System**  
→ Automates tasks and handles complex workflows.

Everything below uses **one of these**.

## 📦 PRE-BRANDING OFFERINGS (ONE-TIME)

### ◆ GENERIC PRE-BRANDING (ANY BUSINESS)

#### 1. Business & Customer Understanding Setup

**What it is:**

I study the business, its customers, and competitors to understand what people ask, what they care about, and why they buy. This makes sure the AI assistant gives the right answers and supports real business goals instead of confusing customers.

**AI Deliverable:**

➡ **AI Assistant (Web or WhatsApp)** trained on the business.

#### 2. AI Conversation & Use-Case Planning

**What it is:**

I plan what the AI assistant should do, how it should reply, and when it should hand over to a

human. This avoids wrong answers and makes the AI helpful, clear, and safe to use.

#### AI Deliverable:

- AI Assistant (Web or WhatsApp) with clear response rules.

### 3. Platform & User Flow Design

#### What it is:

For businesses that need many people using the AI, I design how users access the system and interact with it smoothly without overload or confusion.

#### AI Deliverable:

- Multi-User AI Platform (Web-based).

### 4. AI Training for Sales & Marketing Teams

#### What it is:

I teach teams how to use AI assistants daily to reply faster, follow up better, and improve sales without technical stress.

#### AI Deliverable:

- Team training.
